

Oct. 12

Dear Mom & Dad,

We had a good time in Montreal even though it rained the entire time. I ^{was} surprised that the city is really French with English being secondary. Of course, everyone understands English but still there is the feeling of being in a foreign country. We ate at French restaurants and visited the Expo site on an island in the St. Lawrence.

The drive up to Canada was very beautiful with the leaves gradually turning as we got further north. In Canada the hills were brilliantly colored - we wished we could have stayed longer. On the way we ate our

picnic lunch in a park in the Catskills. Another couple went with us and it was lots of fun. If we didn't have the station wagon it would have been too crowded for such a long drive.

Tomorrow I am going up to Boston and stay one night. Another fellow and I are going to see a demonstration of some computerized measuring devices. I won't have any time for sightseeing, ~~but~~ Vickie and I might go up there around Christmas time. Why don't you meet us there and we will go out to Plum Island?

Later,

Jim
